Gates Operating System **for Airports**

A tool for Apron Controllers to view alerts at stands, get notified, mitigate and tactically solve problems enabling smooth turnaround of flights at airports.

Gates Operating System is packed with situational awareness that provides status of gate equipment and live video from gate's surveillance cameras.

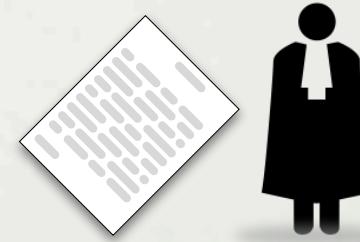

- Someone's already in lobby (Awareness of threshold of keeping people waiting)
- Customer has done with waiting
- Allot new room
- What's next task
- List of available rooms matching the requirement
- First best option
- Next best option
- Customer is not checking out on time (overflowing)
- Re-allocate to different room, replace another guest

The design challenge is making sure a controller can look at multiple gates and get into nittigrities of each gate, see which flights are upcoming for it, whilst being able to multitask with assigning actions to ground safety equipment staff, pilots, bridge controllers without being overwhelmed.

Everything out here is mission critical a tad bit lesser than the Air Traffic Controllers themselves.

Contract Mgmt System for a legal firm

A tool where you can draft your contracts objectively and fill in as little information as possible and let the system fetch, pre-fill and automate your documentation work leaving you to think about the language necessary to keep you off liability and risk as much as possible.

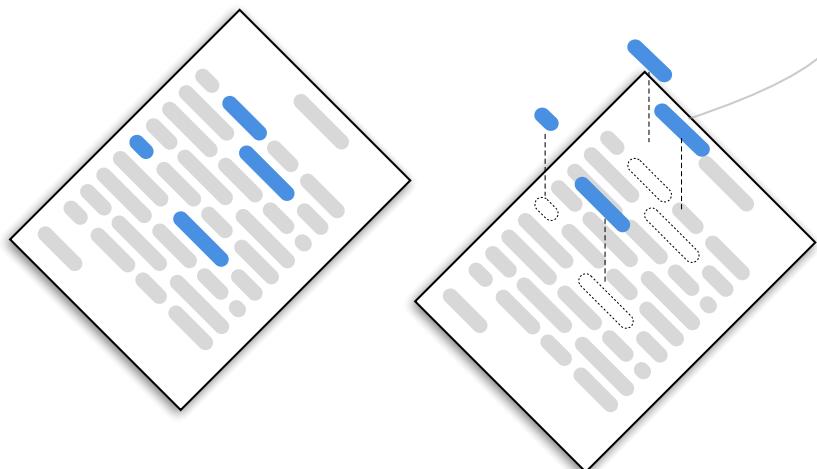

[Link to the Prototype](#)

(password: iac)

A screenshot of a tablet displaying the homepage of the 'drafto' contract management system. The top navigation bar features the brand name 'drafto' on the left, and 'EXISTING USER' and 'NEW USER' buttons on the right. Below the navigation is a main heading 'Intelligent Automation of Contracts' with a subtext 'Access ready made contracts & build away custom agreements effortlessly'. A prominent blue 'GET STARTED' button is centered below this. The background of the page shows a clean, modern office desk setup with a laptop displaying a chart, a calculator, a coffee cup, a small potted plant, and a pen and notepad. At the bottom of the page, there is a dark footer bar with the text 'We are an' followed by a redacted section and 'has associates in Bengaluru & Mumbai.'

Contract Mgmt System for a legal firm

The tool enables you to create and format documents giving closest representation of a situation or reality that can be agreed upon by more than one person. At the core, it is a word processor that helps you string words together in an effective way

→ Tool shall allow you to

- edit this Excerpt
- componentize this Excerpt
- share this Excerpt
- get feedback for this Excerpt
- automate and prefill content into this Excerpt
- move things around in this
- work with versions of this Excerpt
(this saves key conversations and proposed changes/modifications lost in emails)
- search and replace names/objects/keywords in this Excerpt
- hide/show or blur where required in this Excerpt
- work with content smartly, highlight the consequences of content in this Excerpt
(helps save time and money for client and owner)
- identify crucial keywords that can make or break risk present in this
(if for example a keyword all is not appearing before parties mentioned in clauses, then the entire contract may not hold water)
- I may/may not have time and patience in going over full matter over and over again that is there in this Excerpt
(highlight what's changed)

Assortment Planning Tool

for CPG industry

A cloud platform which will take all the inputs from sales hierarchy & speaks back to them seamlessly, helping book perfect orders at every store!

The screenshot shows the iSTORE Assortment Planning Tool interface on a tablet. The top navigation bar includes a back arrow, the title 'iSTORE', a date range selector set to '1 AUG - 1 SEPT 2015', and a menu icon. The main content area is divided into several sections:

- National Performance:** Includes a progress bar for 'Achievement in Sales Value' (164 days left) and a total value of INR 1100,123,40 over 3600,000,00.
- Red Stores in %:** Shows 15% with an upward arrow.
- Total Lines Sold per Store:** Shows 20 with a downward arrow.
- Ru/Ec:** Shows 20 with a downward arrow.
- Achievement in Sales Value:** A pie chart showing the distribution of lines sold across four categories: Star Line in % (35%), Yellow Line in % (22%), Red Line in % (15%), and Orange Line in % (7%).
- Regional performance:** A table showing KPIs for different regions. The table includes columns for Regions, iStore KPIs (Red Stores, SL, YL, RL, OL), Total Lines sold per Store, Ru/Ec, and Month to Date Achievement in Sales Value. The North region data is highlighted in blue.

Regions	iStore KPIs					Total Lines sold per Store	Ru/Ec	Month to Date Achievement in Sales Value
	Red Stores	SL	YL	RL	OL			
North	15	87	15	87	15	87	131	3758

Below the table, growth percentages are listed: +15%, +26%, +26%. Navigation arrows are located at the bottom right of the table.

Demand Planner

Mr.Johnson can choose to filter the entire assortment for a particular geography, product category all the way to the SKU and tweak the quantity of stock needed to be released for the next operating cycle accurately..

Only the item to be tweaked, can be done so inline, allowing the UI to be cleaner than an excel sheet without really having all those borders and still communicate its need and order.

A screenshot of an iPad displaying the SAP Fiori Demand Planning application. The screen shows a search bar at the top with the text "india" and a magnifying glass icon. Below the search bar is a navigation bar with the text "DEMAND PLANNING", a count of "2171 all 0 revised", and a date range "2 Feb 2020 - 1 Mar 2020". The main content area displays a table of assortments with columns for Assortment, Cross Sell (in units), Must Sell (in units), and Target (in '000).

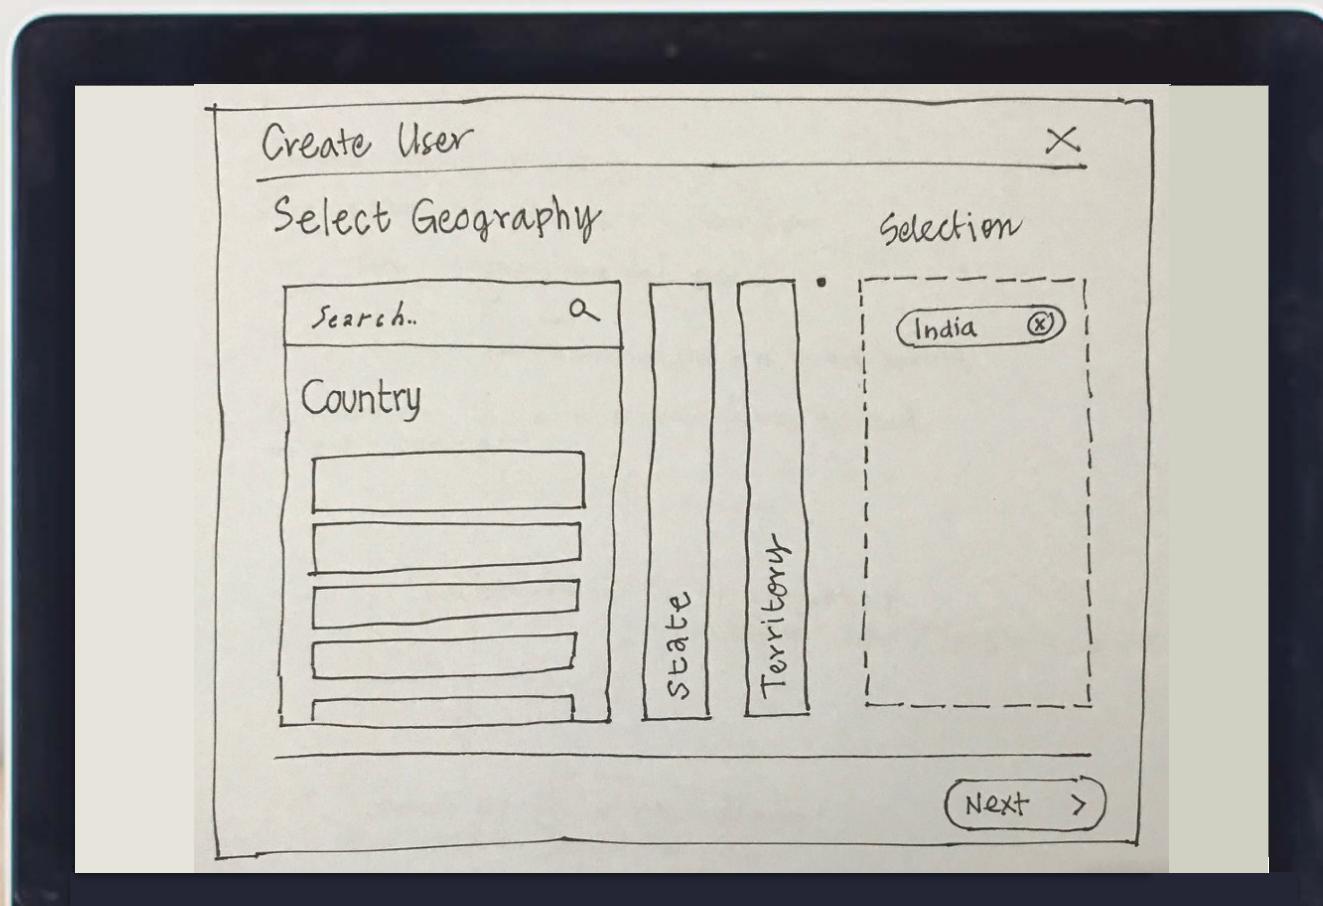

Assortment	Cross Sell (in units)	Must Sell (in units)	Target (in '000)
Processed Foods	223	600	
Beverages	223	600	
Dry Foods	223	223	
Total (MS + CS) in '000	300	600	
Prepared Meals	223	600	
Cosmetics	223	600	
Toiletries	223	600	
Over-the-counter Medications	223	600	
Candy	223	600	

Demand Planner

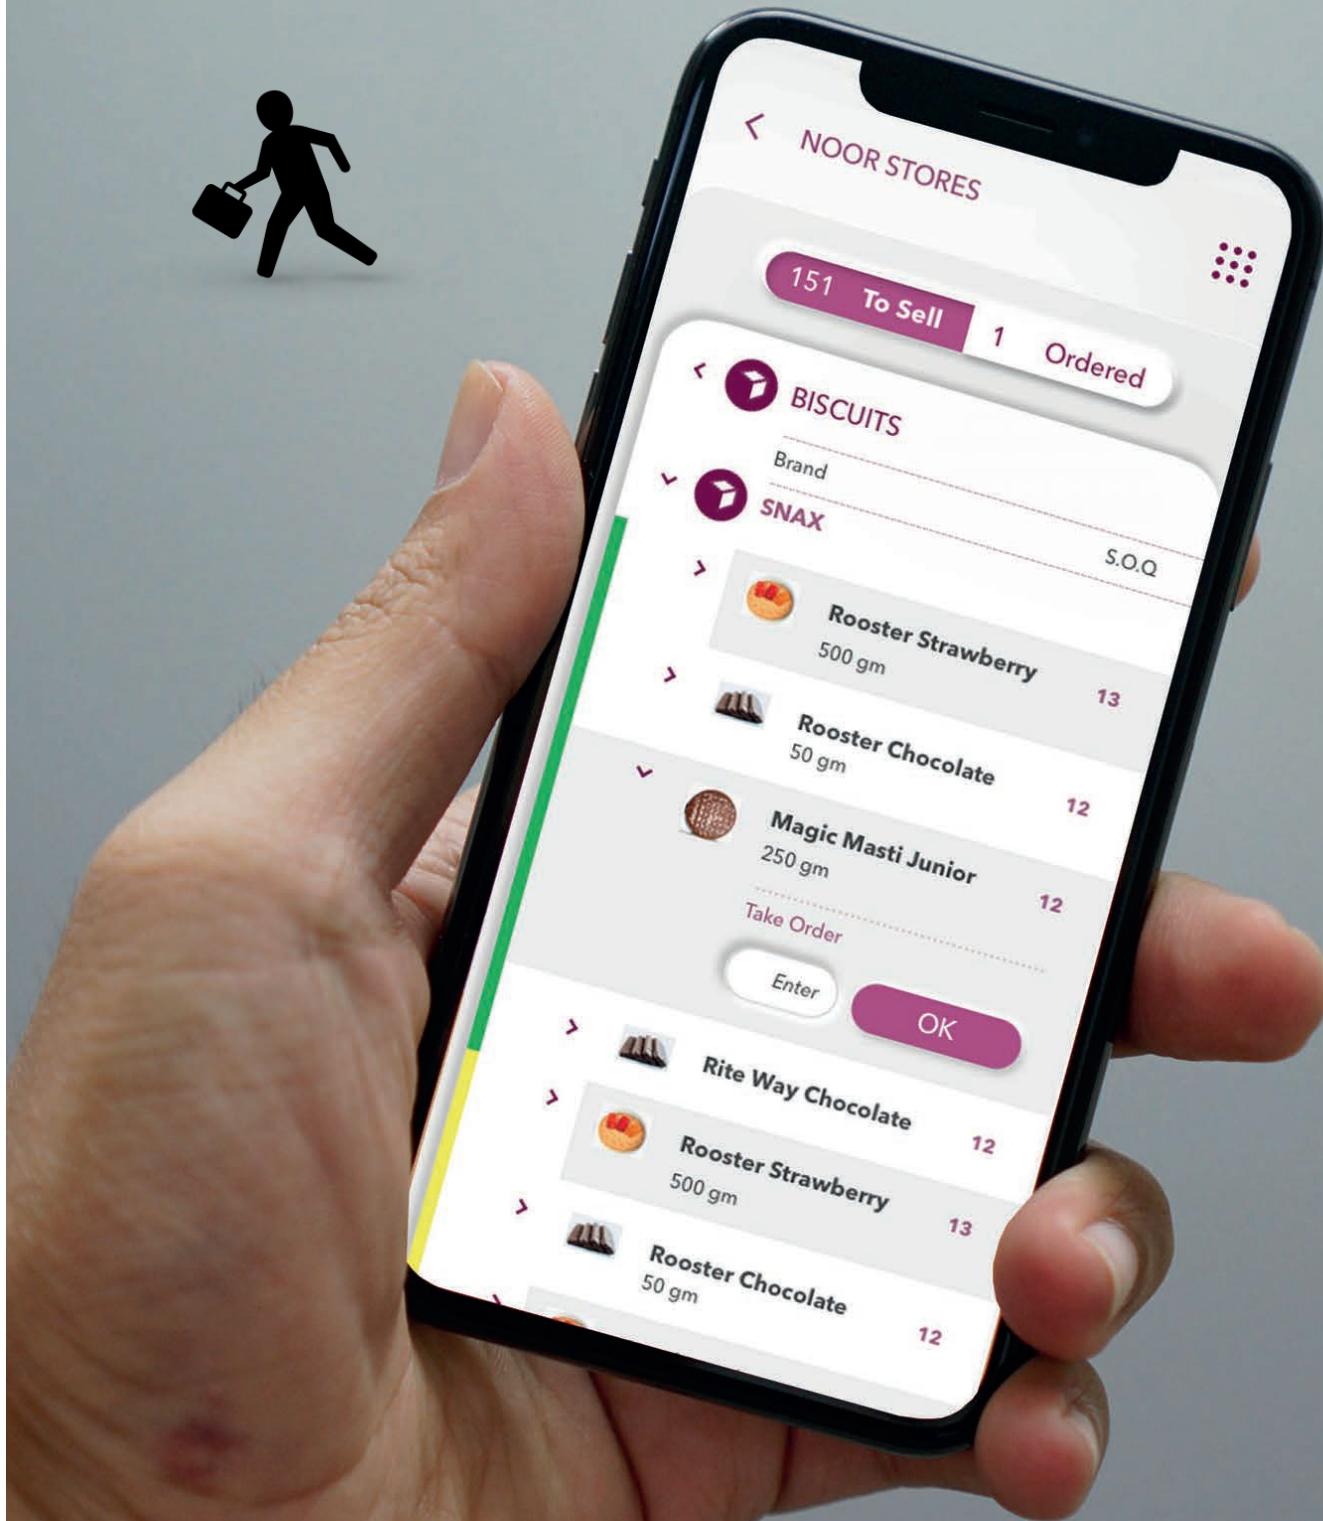

While configuring data access to a sales user, we have multiple set of data like countries, regions, cities, etc. that run into long lists but we don't need all of them open at the same time. Based on the selection from the first, gives us a filtered list of the second and so on.

Using a vertical accordion worked like magic here for a Assortment Planning tool. Breaking the pattern of accordions being only vertical or horizontal and crafting something that marries the two!

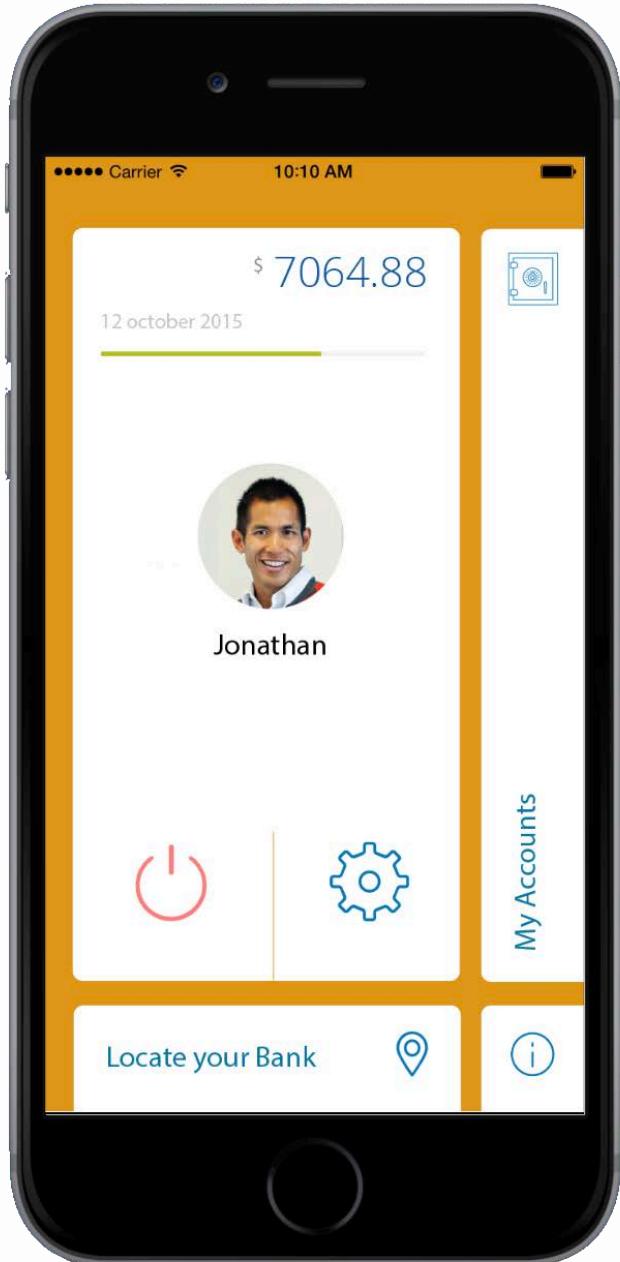

Sales Personnel

They go around their beat for the day visiting shops to book orders. We made an app that would predict out of order, capture it on fly and look and also feel like a notebook - additionally using the perks of technology like colour coding, real-time figure updates, etc.

- WHAT TO SELL
- HOW MUCH TO SELL
- WHEN TO SELL

Very Contextual.
Very now.

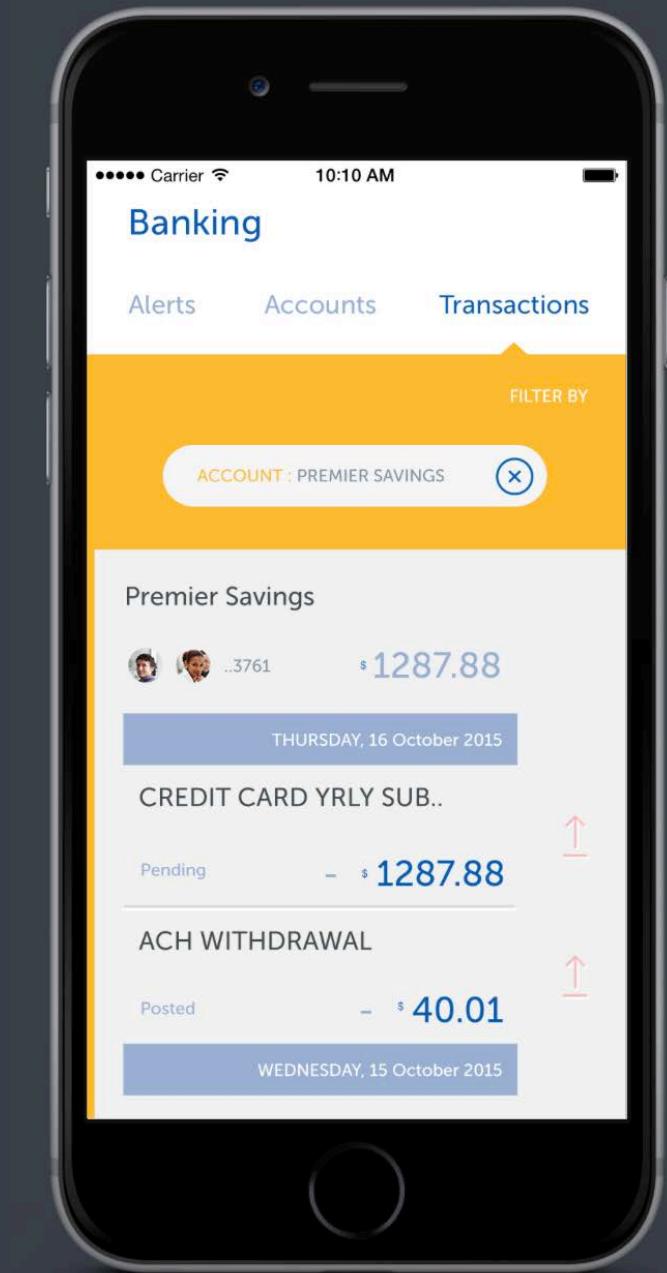

Bank slips/cards

Since a lot of artefacts we find at the bank are paper slips and cards, carrying the affordance in the digital platform made obvious sense for me for a design proposal.

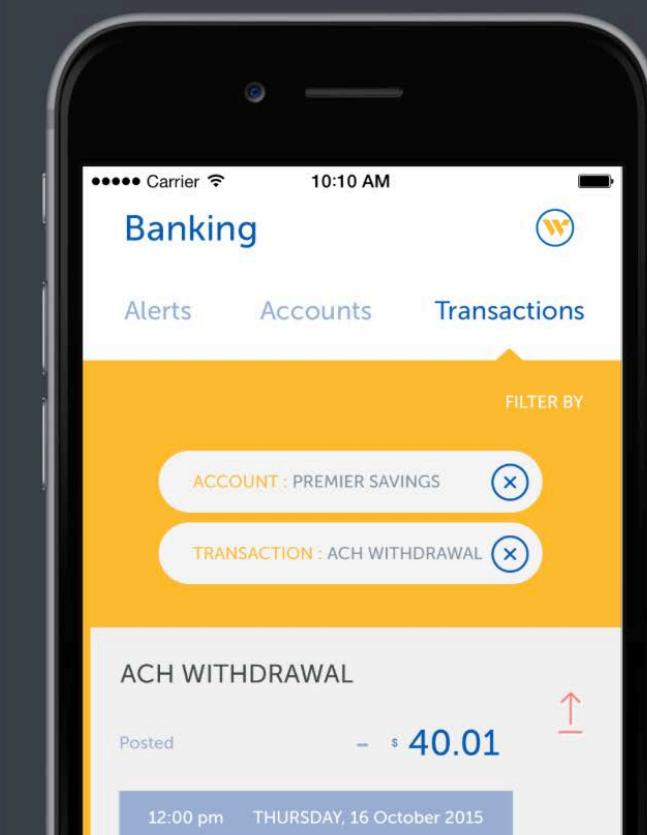

The cards are placed such that at any given point of time you are accessing one of those cards. So you only switch between these cards. Simplifying banking tasks to four groups, goes a long way in helping you stay grounded in context of task you are doing.

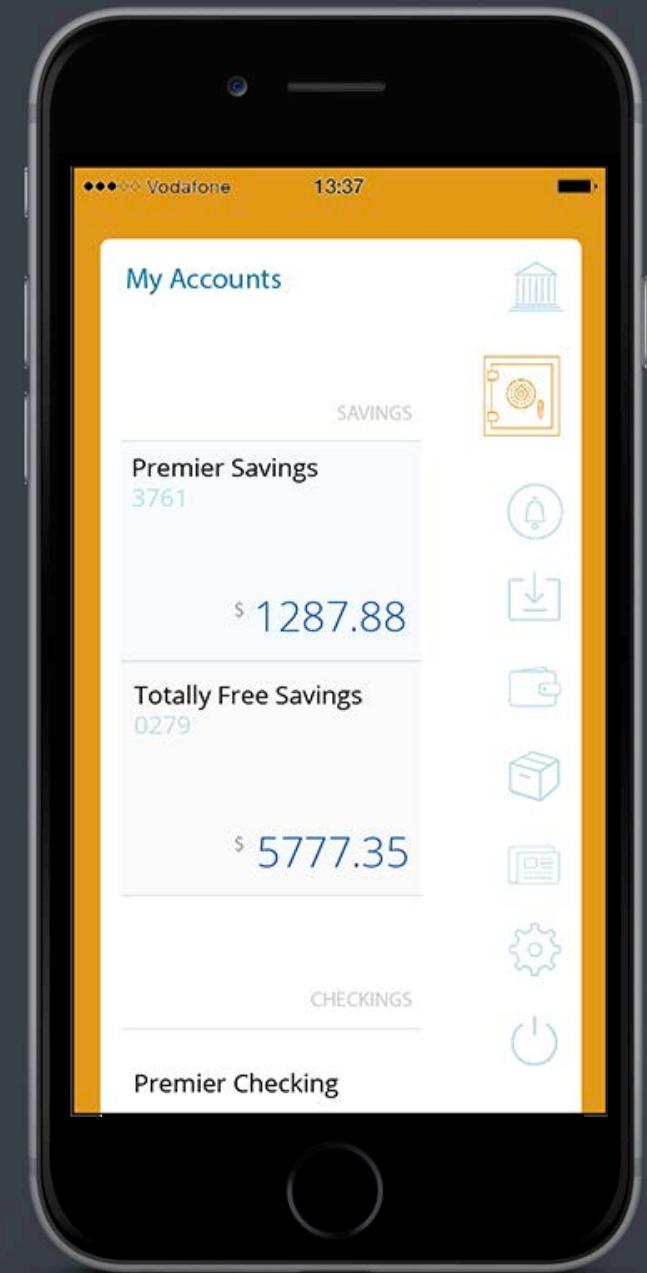

This may be especially useful for non-millennials switching to net or phone-banking as they would internalise that the first card is where I see my transactions. Done!

Filters can do magic in mobile devices

It can help define the context crisply with giving user the power to remove/modify right up front. For a user with multiple accounts, he/she selects an account upon which the transactions are shown for the selection.

Why menu needs to be hidden at all?

For a tool like banking, the more you inform the user where they are without having to show bread crumbs (if you are thinking from the Hansel and Gretel story, you are correct), the better users will feel while engaging with your application.

Ideation Tool

for an Insurance Company

Monday morning as he is entering in office, notices the banner “**Inspire & involve your employees in creative problem solving!**”

He is curious, goes to the kiosk..

Inventory System

for a Mass Media Company

For marketers who deal with that kind of daily feed, a little less chaos..

The screenshot shows a mobile application interface for managing obligations. The top navigation bar includes tabs for 'Magazine' (selected), 'Air & Space', and other categories. A notification badge '1' is visible above the 'OBLIGATIONS' tab. The main screen displays a table of obligations with columns for ID, Version, Description, Activation Date, End Date, Product Type, and Status. The table lists six obligations, each with a gift icon and a unique identifier. The first obligation, 'ABCDE', has a detailed description: 'Lorem ipsum dolor sit amet, Te sea eripuit interpretaris, nec ex'. The last three obligations are labeled 'PQRST NEW'. The left sidebar contains filters for 'Obligation Status' (All selected), 'Clear Filters', 'Product Type' (with options for Print Sub, Digital Sub, Premium, and Entitlement, where 'Print Sub' is checked), 'Segment', 'SSP Range', 'Currency', 'Product Code...', and 'Premium Code...'. A back arrow is visible at the bottom left of the sidebar.

	Obligation Name	ID	Version	Description	Activ. Date	End Date	Product Type	Status
<input type="checkbox"/>	ABCDE	122	1.0	Lorem ipsum dolor sit amet, Te sea eripuit interpretaris, nec ex	1-1-17	1-2-17	Print Sub	23
<input type="checkbox"/>	XYZ123	123	1.0	Te sea eripuit interpretaris, nec ex	12-1-16	-	Digital Sub	21
<input type="checkbox"/>	PQRST	124	1.0	ad puto aperiri dissentias quo	11-1-16	11-1-16	Print Sub	19
<input type="checkbox"/>	PQRST NEW	156	1.4	ad puto aperiri dissentias quo	11-1-16	11-1-16	Print Sub	19
<input type="checkbox"/>	PQRST NEW	155	1.3	ad puto aperiri dissentias quo	11-1-16	11-1-16	Print Sub	19
<input type="checkbox"/>	PQRST NEW	154	1.2	ad puto aperiri dissentias quo	11-1-16	11-1-16	Digital Sub	19

Inventory System for a Mass Media Company

A marketer can bundle up a couple of offers of his/her selection by dragging them into the 'Drawer'. **Remember they upselling/cross selling on the go** while they are talking to a customer, and during which they would be shooting him/her an email and telling, "you know what?, lets say your first six months subscription is on us.."

Tool allows finding offers by their type, their version, price, etc and quickly packaging them into something that can be shot across various channels.

The screenshot shows a web-based inventory system for Time Inc. The top navigation bar includes links for 'TimeInc.', 'Air & Space' (selected), 'Notifications', 'Obligations' (selected), 'Bundles', and 'Log Out'. Below the navigation is a search bar with placeholder text 'Showing All Obligations' and several action buttons: 'Add to Drawer', 'Create New', and a magnifying glass icon. A table lists five obligations:

Obligation Name	ID	Version	Description	Activation Date	End Date	Product Type	SSP	Currency	Status
Print Sub 1 Year DM	123	1.0	Lorem Ipsum Dolor Citu	1-1-17	1-1-17	Print Sub	2.99	USD	ACTIVE
Obligation 1234	123	1.0	-	1-1-17	1-1-17	Digital Sub	2.99	USD	ACTIVE
Ipsum	123	1.0	Dummy text dummy text	1-1-17	1-1-17	Print Sub	2.99	USD	DRAFT
Ipsum	123	1.0	Lorem Ipsum Dolor Citu	1-1-17	1-1-17	Print Sub	2.99	USD	PENDING

At the bottom of the page, there are navigation icons for left, right, and double arrows, along with page numbers 1 and 2.

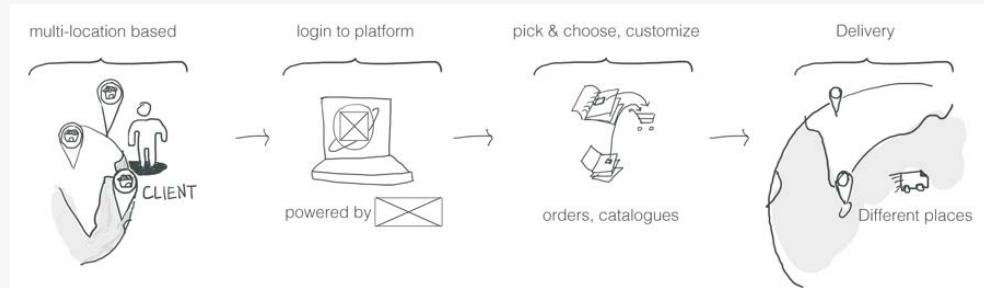

The screenshot shows a mobile application interface for creating a bundle. At the top, there are icons for messaging and notifications. The main area is titled 'Obligation' and contains a placeholder text 'Drag drop Active Obligations here'. To the right is a sidebar with a list of obligations:

- Obligation 1
- Obligation 2
- Obligation 3
- Obligation 4
- Obligation 5
- Ipsum
- Ipsum

Below the sidebar is a large blue button labeled 'Create Bundle'.

Self Service Portal

We know your process so things are more streamlined for you than you need to ask..

The image shows a tablet and a smartphone demonstrating a self-service portal. The tablet screen displays the homepage of the portal, featuring a banner with the text "All your Print & Media needs..", three circular service icons (1000x \$40/-, 100x \$80/-, 1x \$200/-), and a "Get delivery in a day!*" button. Below this are sections for "Business Collaterals" showing examples like brochures and business cards, and a "Create Custom" section. The smartphone screen shows a mobile application for approvals, displaying a notification for an order (Order #12001, Brochure 8.5" x 11", Badge Print) with a value of €25.50, and a large "Approve" button at the bottom.

The screenshot shows a digital interface for creating corporate collaterals. At the top, there's a navigation bar with a search icon, a 'shop' button, a 'create custom' button, a shopping cart icon, and a profile picture for 'Joanna'. Below the navigation, a section titled 'Corporate Collaterals' displays various template categories with preview images and download links. The categories include business cards, letter heads, brochures, and envelopes. Each preview image includes a yellow button labeled '1000x 250'. The interface is clean and modern, designed for easy navigation and customization.

Point-Of-Sale UI for a Jewellery Chain

To enable quick tapping on POS machine to add discounts effortlessly without holding the queue up for long. also dark grey colour because white becomes too much of a contrast if user at the counter would need to be seeing this throughout the day.

Notice how the total appears twice. It is always present at the top if no action needs to be taken and hence user doesn't need to scroll in the POS machine at counter

Thank you

for your time!
